

TABLE OF CONTENTS

1. Executive Summary.....	1
2. Introduction.....	17
3. Traffic Counts.....	22
4. Pavement Marking Study.....	28
5. Sign Inventory.....	29
6. Signal Inventory.....	30
7. Travel Time Studies.....	37
8. Public Involvement & Stakeholder Survey.....	48
Public Involvement.....	48
Stakeholder Surveys.....	50
9. Access Management.....	52
10. Capacity Analysis.....	54
Existing Conditions.....	55
Signal Timing Improvements.....	63
ARTIMIS Interconnect.....	70
Future Conditions.....	78
Future Conditions – Freeway Incidents.....	84
11. Accident Analysis.....	89
Methodology.....	89
Crash Data Analysis.....	90
Accident Analysis for Priority Locations.....	93
12. Related Studies.....	101
Dixie Highway Corridor Study.....	101
North South Initiative.....	102
13. Short Term Recommendations.....	104
Signal Inventory.....	104
Short Term Signal Timing Improvements.....	114
14. Mid-Term Recommendations.....	119
Closed Loop System.....	119
Traffic Camera System (Requires Closed Loop Signal System).....	121
ARTIMIS Interconnection (Require Closed Loop Signal System).....	122
Emergency Preemption.....	123
Signal Hardware Improvements.....	124
Access Management Plan.....	125
Study of On-Street Parking.....	125
Pedestrian Improvements.....	126
Management Issues for Consideration.....	128
15. Long Term Recommendations.....	130
Realignment of Offset Intersection.....	130
Addition of Turn Lanes.....	133
Railroad Overpass.....	134
Access Management Improvements.....	134
Study of ARTIMIS Extension.....	135
16. Additional Design Considerations.....	137

INDEX OF FIGURES

1. Location Map.....	17
2. 24 Hour Mechanical Count Locations.....	24
3. Manual Count Locations.....	25
4. Manual Count Locations.....	26
5. Manual Count Locations.....	27

INDEX OF TABLES

1. Signalized Intersections.....	21
2. Travel Time Study (Before) AM Peak Hour NB.....	40
3. Travel Time Study (Before) AM Peak Hour SB.....	41
4. Travel Time Study (Before) PM Peak Hour NB.....	42
5. Travel Time Study (Before) PM Peak Hour SB.....	43
6. Short Term Signal Timing Recommendations Travel Time Study (SB).....	45
7. Short Term Signal Timing Recommendations Travel Time Study (NB).....	46
8. LOS Criteria (HCM Exhibit 16-2).....	54
9. LOS Criteria (HCM Exhibit 17-2 & 17-22).....	54
10. LOS Criteria for Arterials (HCM Exhibit 15-2).....	54
11. Existing Level of Service and Delay.....	56
12. Synchro Average Link Speed and Arterial LOS – Existing (NB).....	57
13. Synchro Average Link Speed and Arterial LOS – Existing (SB).....	58
14. Travel Time Study Baseline (NB).....	59
15. Travel Time Study Baseline (SB).....	60
16. Level of Service and Delay for Short Term Signal Timing Recommendations.....	64
17. Synchro Average Link Speed and Arterial LOS Short Term Recommendations (NB)...	65
18. Synchro Average Link Speed and Arterial LOS Short Term Recommendations (SB)...	66
19. Short Term Signal Timing Recommendations Travel Time Study (SB).....	67
20. Short Term Signal Timing Recommendations Travel Time Study (NB).....	68
21. Existing Level of Service and Delay – Freeway Incident.....	72
22. Existing Synchro Average Link Speed and Arterial LOS – Freeway Incident (NB).....	73
23. Existing Synchro Average Link Speed and Arterial LOS – Freeway Incident (SB).....	74
24. Level of Service and Delay – Freeway Incident – Optimized Signal Timing.....	75
25. Synchro Average Link Speed and Arterial LOS – Freeway Incident – Optimized Signal Timing (NB).....	76
26. Synchro Average Link Speed and Arterial LOS – Freeway Incident – Optimized Signal Timing (SB).....	77
27. Annual Average Traffic Growth by Segment.....	80
28. Level of Service and Delay – 2015 Future Traffic.....	81
29. Synchro Average Link Speed and Arterial LOS – 2015 Future Traffic (NB).....	82
30. Synchro Average Link Speed and Arterial LOS – 2015 Future Traffic (SB).....	83
31. Level of Service and Delay – 2015 Future Traffic (SB) – Freeway Incident.....	85
32. Synchro Average Link Speed and Arterial LOS – 2015 Future Traffic (NB) – Freeway Incident.....	86
33. Synchro Average Link Speed and Arterial LOS – 2015 Future Traffic (NB) – Freeway Incident.....	87

DIXIE HIGHWAY CORRIDOR STUDY
A PLAN FOR TRANSPORTATION & TRAFFIC OPTIMIZATION

34. Intersection Crash Data..... 91
35. Mid-Block Crash Data..... 91
36. Proposed Clearance Interval Timing..... 94

- Appendix A: Access Management
- Appendix B: Press Coverage
- Appendix C: Related Studies
- Appendix D: References
