64th Annual Meeting

The Hamilton County Soil and Water Conservation District held its 64th Annual Meeting on September 17, 2009, at the Cincinnati Zoo and Botanical Garden. Guided tours of the green storm water practices at the zoo were provided prior to the meeting. Mark Fisher, Senior Facility Director, gave a wonderful presentation on the plan to take the entire zoo property off of the storm water grid through creative green methods.

Annual Meeting 2009 Conservation Award Winners

2009 Education Partner of the Year

This year the District recognized the Children's Librarians of the Public Library of Cincinnati and Hamilton County as the Education Partner of the Year. Over the past year, we have worked with many libraries in Hamilton County. We have designed programs specifically to meet the needs of the library's diverse audience. Debbie Hull (Madeira Children's Librarian) and Megan Brandmeier (Norwood Children's Librarian) attended our annual meeting to accept the award on behalf of all the Children's Librarians

Megan Brandmeier, Gwen Roth
and Debbie Hull

2009 Conservation Developer of the Year

Don Misrach and Tom Miller, owners of Glendower Place LLC, are the Hamilton County Soil & Water Conservation District's 2009 Conservation Developers of the Year. The District recognizes their efforts at the Glendower Place Subdivision in Whitewater Township. Glendower Place is a densely wooded single-family subdivision that contains several streams and an existing lake. Don and Tom worked closely with their engineer to protect the streams and lake and ensured compliance with county, state and federal laws. The disturbance of the wooded areas was minimized thereby reducing the amount of earthwork and fitting the development into the surrounding topography. They have laid the foundation for conservation development in Hamilton County. The District encourages you to see the conservation in action at Glendower Place Subdivision on Harrison Road west of Miamitown in Whitewater Township.

Don Misrach and Dan Taphorn

2009 Water Quality Partner of the Year

Bruce Koehler, Senior Environmental Planner with Ohio-Kentucky-Indiana Regional Council of Governments (OKI) is this year's 2009 Water Quality Partner winner. Bruce has worked for OKI protecting water resources for the last 20 years. Many of the stream and wetland restoration, drinking water protection, and storm water management projects in Hamilton and Lower Butler County have been facilitated by Bruce. One of the projects Bruce coordinated, a source water inventory and protection plan in the Lower Great Miami watershed, received a national award from the American Planning Association as the 2009 National Planning Achievement Award. We appreciate Bruce's ability to go the extra mile to help individuals come together during the project implementation.

Brian Bohl and Bruce Koehler

64th Annual Meeting Continued

Denny Benson

A county-wide public election was held at the Annual Meeting to select one supervisor for a three-year term. Nominees were incumbent Dennis Benson and Nigel Chalkley. The election was won by Dennis Benson. Our congratulations to Dennis and our thanks to Nigel Chalkley for his interest in the District.

A silent auction was also held during the Annual Meeting. Staff and Supervisors secured fantastic items that ultimately raised over \$550.00 to support the Odegard/Diebel Scholarship fund to help Hamilton County teachers with conservation education expenses.

A copy of our annual report may be picked up at our District office or viewed on our website at www.hcswcd.org, click on newsletter/publications.

District Staff Honored by County Commissioners

During the Annual Meeting, the Hamilton County Commissioners presented Gwen Roth, District Education Specialist and Brian Bohl, District Stream Specialist, with proclamations honoring them for their contributions to the environmental quality in our county.

Brian Bohl & Gwen Roth

Gwen Roth has been employed by the District for 12 years and has introduced many new and innovative school programs over the years. Her partnerships with dozens of organizations such as the Cincinnati Zoo, Cincinnati Museum Center, Cincinnati Horticulture Society, University of Cincinnati and Farm Bureau have led to quality programs and venues to educate children and the public. This past year, Gwen initiated a new partnership with the Cincinnati Public Libraries. Gwen also serves as a Coordinating Committee Member for the State of Ohio Federation of Soil & Water Conservation for Proficiency Certification for Educators, and she is a member of the Coordinating Committee for Greater Cincinnati Environmental Educators.

Brian Bohl has been with the District for 8 years. He is instrumental in several green landscaping demonstration projects as well as stream restoration projects. He provides technical expertise as a member of four watershed organizations. Brian is currently President of the Friends of the Great Miami, member of the Ohio EPA Stream Mitigation Rule Working Group, serves on the Technical Advisory Committees for the Hamilton County Stormwater District, the USEPA Shepherds Creek Project and the Chevron Site Remediation Advisory Panel. This past year, Brian co-authored the "Rain Garden Guidelines for Southwest Ohio". He also received the Ohio EPA Level 2 Chemical Method Training and Level 3 Qualified Data Collector status for stream habitat assessments (QHEI analysis). He is one of the few in the State of Ohio to achieve the Level 3 Qualified Data Collector certification.

The District is proud of these employees and congratulates both of them on their recognition by the County Commissioners for a job well done!

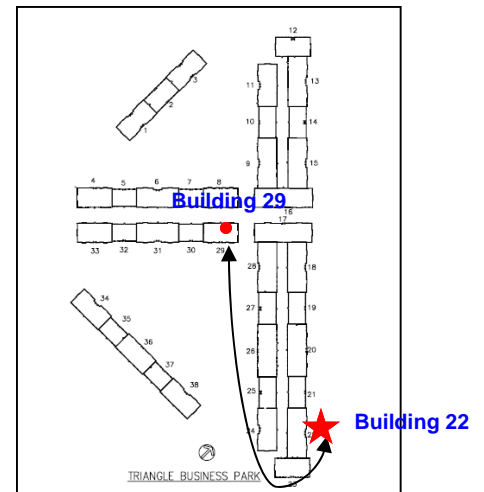

WE ARE MOVING!!!

The Hamilton County SWCD will be moving its office in January. We will be in the same office park, just a different Building.

Currently, we are located in Building 29, and will be relocating to Building 22. At this time, we are not certain of the exact move date. If you plan to visit our office in January, please call us to get an update. As soon as we know the move date, we will post it on our website at www.hcswcd.org

Envirothon 2010

Calling all High School Teachers!!! The Envirothon is a competitive, outdoor, academic event for high school students. The Envirothon tests students' knowledge of soils, forestry, wildlife, aquatic ecology and a current environmental issue (Protection of Groundwater Through Urban, Agricultural and Environmental Planning).

Interested schools may enter up to two teams (3 - 5 members per team with alternates). The deadline for entering the number of teams is Friday, February 5, 2010. Please call Gwen at 513-772-7645 x14 to register the teams for your school.

This year's competition will be held in our own backyard on Tuesday May 4, 2010, at the Voice of America Park (Butler County). Last year over 70 teams competed from 16 counties. The top four of the five-member teams continue on to the State Envirothon held in June. The top State team will compete in the Canon Envirothon in August held in California.

Study materials are being posted on the Internet. Please visit the website at www.areaenvirothon.org.

I hope you will join us for the 2010 Envirothon!!

Upcoming Teacher Workshop Soils Workshop

Date: Saturday, January 30, 2010
Location: Butler County SWCD
1802 Princeton Road
Hamilton, OH 45011

Time: 8:30 a.m. – 3:00 p.m.
Cost: \$10
Who: Educators grades 2-4

PRE-REGISTRATION IS REQUIRED by Friday, January 15

To register or for more questions, contact: Gwen Roth (513-772-7645 or gwen.roth@hamilton-co.org) or Lynn White (513-785-6666 or whitelr@butlercountyohio.org)

Graduate Credit: UC credit available for a reduced rate from the Economics Center

Join us to learn *What is soil? Where does it come from? What is erosion and how can we reduce it? And much more...* Find out about life underground in the Hamilton County SWCD's *Soil Tunnel* and the Butler County SWCD's *Education Soil Trailer*. Try many wonderful hands-on activities and get some great background information to boost your knowledge and level of comfort in teaching soils to your students.

Participants will receive teacher resources to use in the classroom, light breakfast and snacks.

Sponsored by: Butler County and Hamilton County Soil & Water Conservation Districts and the Ohio Farm Bureau

Poster and Essay Contests

The District is sponsoring an essay contest and a poster contest for Hamilton County students. The theme is "**Conservation Habits - Healthy Habitats**", which corresponds with the National Association of Conservation District's Stewardship Week *April 25 – May 2, 2010*. (For more information go to www.nacdn.org).

Grade Divisions

Essay contest: 3 - 5, 6 - 8, and 9 -12

Poster contest: K - 2, 3 - 5, 6 - 8, and 9 -12

For detailed information on each contest, please see our website at www.hcswcd.org.

Both posters and essays are due by **Friday, March 12, 2010**, in the Hamilton County Soil and Water Conservation District office at 29 Triangle Park Drive, Suite 2901, Cincinnati, Ohio 45246, Attention: Cheryl Reinke Peck.

Winners from each grade level category will receive a \$25 gift certificate and sponsoring teachers receive a \$25 gift certificate. All essays and posters become the property of Hamilton County Soil and Water Conservation District.

John Williams, District Conservationist-NRCS

CONSERVATION RESERVE PROGRAM (CRP)

The Farm Services Agency is continually accepting applications to enroll environmentally sensitive areas such as grassed waterways, filter strips, quail buffers and some wetland practices into the CRP program. The purpose of the program is to reduce soil erosion, improve water and soil quality and provide wildlife habitat and food sources. In return, the landowners will receive annual rental and maintenance payments, incentive payments for certain activities and cost share for establishment. To be eligible for enrollment in this program, participants and acreage must meet certain requirements. Provided the eligibility requirements are met, the Farm Service Agency will automatically accept enrollments of acreage into Continuous CRP. Landowners may enroll in the program at any time during the year. For more information on Continuous CRP enrollments, please feel free to contact **Butler-Hamilton FSA, 1802 Princeton Rd, Suite 200, Hamilton, Ohio 45011-4742, phone 513-887-3727.**

Interested In Conservation and Wildlife Habitat? Now Is The Time To Act!

Time still remains to sign up for CP33 “**Habitat Buffers for Upland Birds**”, a conservation practice that allows you to maximize cropland production, control soil erosion, improve water quality and help bring back upland birds.

Bobwhite Quail
Source: iris.nyit.edu

Wildlife habitat (30-120 feet in average width) can be established as field borders around the perimeter of eligible agricultural fields. This conservation practice is a Continuous Sign-up Conservation Reserve Program (CRP) practice targeted at providing early successional nesting and brooding habitat for Northern Bobwhite Quail. This habitat is provided by establishing native grasses and wildflowers in buffer areas. CP33 is also beneficial to many grassland songbirds and many other species of wildlife.

Practice benefits and incentives:

- Annual rental payments for 10 years at 100% of government soil rental rates (Competitive payments)
- \$100.00/acre signing incentive payment
- Approximately 90% cost share reimbursement for habitat establishment

There have been 20,000 acres allotted to Ohio, and so far 14,500 acres have been signed up in buffers. We need to use these acres here in Southwest Ohio to benefit declining populations of bobwhite quail where nesting and brood rearing habitat are the most lacking feature.

If you have been considering such options or would like to learn more, please contact Erik Lewis, Farm Bill Biologist with Pheasants Forever at 937-654-3884.

Stream and Storm Water Management News

Stream Specialist Brian Bohl

Come Join the Friends of the Great Miami

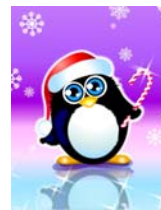

Saturday, December 19th, 2009

Native tree plantings with Friends of the Great Miami. Volunteers needed to revegetate the Great Miami River floodplain at Heritage Park in Colerain Township on 11/21 and at the Oxbow wetland in southwest Hamilton County on 12/19 (10:00 A.M. – 12:30 P.M. each day) - if interested in helping with restoration efforts, please contact Brian Bohl by phone at (513) 772-7645 ext. 15 or by e-mail at brian.bohl@hamilton-co.org.

The 7th Annual Sediment and Erosion Control Field Day

Date: Wednesday, February 24th, 2010
Time: 3:00pm to 7:00pm
Cost: \$30.00 (early registration) includes steak dinner/show
Location: Clermont County Fairgrounds in Owensville, OH

The Planning Committee for the Field Day has switched gears. It has been decided to focus the event on attracting those persons who install the practices in the field. These are the contractors, builders and even developers who are responsible for installation and maintenance of required BMPs. The event will be held in the "off" season and in the evening. It will feature a nationally recognized comedian as the keynote speaker. Dinner will include sirloin steak with a cash bar.

TOP FIVE REASONS TO ATTEND THIS EVENT:

1. Sessions include outside field demonstrations IN FEBRUARY!!!
2. Representative from the **National Association of Home Builders**
3. Vendor booths with product demonstrations
4. STEAK DINNER included, cash bar
5. FREE SHOW with **DREW HASTINGS** (with paid registration, of course!)

Sponsorships available - Limited display space
