Bicycle Transportation Planning

The final report of an extensive study of bicycle transportation planning in the Cincinnati region was released by the Bike Plan Team and the OKI Regional Council of Governments. The plan, which has been in the works for over a year, is designed to provide a comprehensive vision and strategy for improving bicycle transportation in the region.

The plan includes recommendations for creating more bike-friendly streets, improving bike infrastructure, and promoting bike safety. It also provides strategies for increasing the number of bicycle riders in the region and for improving overall bike connectivity.

The Bike Plan Team, which is comprised of experts in transportation planning, public health, and urban design, has been working on this project for over a year. The team has conducted extensive research and analysis to develop the plan.

The plan is available for public review and comment through March 31, 2013. The Bike Plan Team will be holding public meetings in various locations throughout the region to discuss the plan and to hear from the public.
