NOTE: A sewer service area indicates where combined sewage collection and treatment is currently available or would be expected to be available in the near future. All areas are included in the Sewer Service Area except for: the City of Lebanon, the City of Middletown, and areas in the City of Lebanon and Village of Middletown where the City of Lebanon and Middletown respectively have contract agreements to provide service. The map also includes areas with High Concentration Of Onsite Systems.

Please note that the map is a general planning tool designed for the purposes of planning and research, and should not be relied upon as a source of detailed information for decision-making purposes. The map includes a water source area for Sewer Service Areas. The map also includes areas with High Concentration Of Onsite Systems.
