PROGRAM MANAGEMENT PLAN

SECTION 5310 PROGRAM

Ohio • Kentucky • Indiana
Regional Council of Governments

May 2019
The Ohio-Kentucky-Indiana Regional Council of Governments (OKI) Program Management Plan (PMP) describes the policies and procedures for administering the Section 5310 federal program in the Cincinnati urbanized area (UZA). OKI, as the designated recipient, maintains this PMP to facilitate both recipient management and FTA oversight as required by FTA Circular 9070.1G Chapter VII. This PMP for the OKI Section 5310 Program includes program objectives, policies, procedures, and administrative requirements in a form accessible to potential subrecipients, recipient staff, FTA, and the public.

A. Program Goals and Objectives
The goal of the Section 5310 program is to improve mobility for seniors and persons with disabilities. The program requires coordination of federally assisted programs and services for the most efficient use of federal funds. To be eligible to receive funds through the program, projects or activities must be included in the OKI Coordinated Public Transit - Human Services Transportation Plan. This plan is updated at least once every 4 years and can be found at https://www.oki.org/studies-plans/oki-coordinated-plan-2016-update/. The Coordinated Plan was approved on August 9, 2007 and most recently updated on September 8, 2016. This Coordinated Plan establishes long-term goals for providing transportation services to seniors and persons with disabilities and identifies where gaps in transportation services exist in the OKI region. It also prioritizes which gaps are more important to residents in the region based upon extensive public input and stakeholder engagement. The list of prioritized gaps in transportation services was developed through surveys, meetings and other outreach methods used to gather public input into the development of the Coordinated Plan. The Coordinated Plan places higher emphasis on projects that address these gaps and the prioritization process rewards higher points to applications that address the higher ranked gaps in transportation services. The goals of the Coordinated Plan are consistent with the OKI Metropolitan Transportation Plan (MTP), the long range plan for the OKI region, and are listed in the Overview section of the MTP, found at http://2040.oki.org/overview/.

Under 49 U.S.C. Section 5310, the U.S. Department of Transportation Federal Transit Administration (FTA) is authorized to issue capital grants for the purpose of assisting organizations in providing transportation services to meet the special needs of elderly persons and persons with disabilities where existing transportation services are unavailable, insufficient or inappropriate. This includes riders who are either 60 years of age or older or who by reason of illness, injury, age, congenital malfunctions, or other permanent or temporary incapacity or disability, are unable without special facilities, special planning or design to use mass transportation facilities and services as effectively as persons who are not so affected.

Elected officials comprise a large percentage of the OKI Executive Committee and Board of Directors and members are kept apprised of any developments with the Section 5310 program in the Cincinnati urbanized area. This group will ultimately award funding, by resolution, to applications seeking Section 5310 federal funds.
B. Roles and Responsibilities
Title 49 U.S.C. 5310 authorizes the formula assistance program for the Enhanced Mobility of Senior and Individuals With Disabilities Program and provides funding to states and designated recipients to improve mobility for seniors and individuals with disabilities. Under FAST Act, the States are responsible for selecting a designated recipient(s) for the Section 5310 program in their UZA. OKI has been named the Designated Recipient for the Section 5310 federal program in the Cincinnati urbanized area by the Governors of Ohio, Kentucky and Indiana. As the Designated Recipient, OKI is responsible for:

a. documenting procedures in a Program Management Plan;
b. planning for future transportation needs and ensuring integration and coordination among diverse transportation modes and providers;
c. developing project selection criteria consistent with the coordinated planning process;
d. notifying eligible local entities of funding availability;
e. soliciting applications from potential subrecipients;
f. determining applicant and project eligibility. This includes verifying the potential subrecipient is not listed on the U.S. General Services Administration’s (GSA) System for Award Management (SAM) as excluded or disqualified by federal government agencies from receiving federal financial assistance;
g. certifying that allocations of funds to subrecipients are made on a fair and equitable basis;
h. ensuring subrecipients have the financial management systems to carry out the 5310 program proposed and receive and disburse federal funds (as applicable);
i. submitting an annual Program of Projects (POP) and grant applications/reports to FTA;
j. ensuring subrecipients continue to comply with federal requirements for their project and through their project period. This includes restrictions on lobbying certification, Title VI adherence, ADA requirements, and maintaining vehicle state of good repair (as applicable);
k. certifying that all projects are included in the OKI Coordinated Public Transit - Human Services Transportation Plan;
l. certifying that to the maximum extent feasible, services funded under Section 5310 are coordinated with transportation services assisted by other Federal departments and agencies;
m. ensuring that at least 55 percent of the apportionment is used for traditional Section 5310 projects carried out by eligible subrecipients; and
n. managing all aspects of grant administration, distribution, and oversight for subrecipients.
C. Coordination
All projects included in the application for Section 5310 funds must be included in the OKI Coordinated Public Transit-Human Services Transportation Plan. Twenty-five of the one hundred possible points in the Section 5310 application are associated with coordination. Applicants must include a list of all agencies they coordinate transportation services with and specifically identify how the coordination results in transportation efficiencies. Documentation from each agency listed, such as a signed letter or agreement, must be attached that confirms any current, ongoing, or proposed coordination efforts.

The OKI 5310 Oversight Team, defined and established by the Coordinated Plan, includes representatives from local transit and private non-profit social service agencies. The Oversight Team assists OKI in reviewing 5310 applications each cycle and provides recommendation for funding awards to the OKI Intermodal Coordinating Committee and the OKI Board/Executive Committee.

With support by the 5310 Oversight Team, OKI periodically convenes the Tristate Transportation Equitable Opportunity Team (TTEOT), a support group of professionals who represent a broad spectrum of transportation providers and planners working to address the transportation needs of the elderly and individuals with disabilities in the OKI tristate region. The TTEOT is open to anyone interested in joining and shares information regarding ongoing projects, including 5310 funded activities, which impact transportation services for seniors and people with disabilities. All OKI Section 5310 subrecipients are invited to participate, share best practices to encourage coordination, and discover potential opportunities for new partnerships with the TTEOT.

D. Eligible Subrecipients
Eligible Subrecipients for Traditional Section 5310 Projects
Private non-profit organizations, which have their Articles of Incorporation on file with the Secretary of State in Ohio, Kentucky or Indiana, are eligible to apply for funding.

A state or local governmental authority that; (1) is approved by a state to coordinate services for seniors and individuals with disabilities, or (2) certifies that there are no non-profit organizations readily available in the area to provide service are eligible to apply for funding.

Eligible Subrecipients for Other (non-traditional) Section 5310 Projects
Eligible subrecipients for other eligible Section 5310 activities include a state or local governmental authority, a private non-profit organization or an operator of public transportation that receives a Section 5310 grant indirectly through a recipient.

Private Taxi Operators as Subrecipients
Private operators of public transportation are eligible subrecipients. Private taxi companies that provide shared-ride taxi service to the public or to special categories of
users (such as seniors or individuals with disabilities) on a regular basis are operators of public transportation and are eligible subrecipients. However, taxi companies that provide only exclusive-ride service are not eligible subrecipients. Local (municipal/state) statutes or regulations, or company policy, will generally determine whether a taxi company provides shared-ride or exclusive-ride service. Exclusive-ride taxi companies may participate in the Section 5310 program as contractors and they may receive Section 5310 funds to purchase accessible taxis under contract with a state, designated recipient or eligible subrecipient such as a local government or non-profit agency.

**Eligible Activities**

**Traditional**
FTA requires at least 55 percent of a recipient’s (OKI) Section 5310 funds are to be used for capital projects that are “traditional” Section 5310 projects. The 55 percent requirement is the minimum, however capital projects can utilize more of the apportionment if needed. Capital projects are public transportation projects planned, designed, and carried out to meet the special needs of seniors and individuals with disabilities when public transportation is insufficient, inappropriate, or unavailable. Fundable capital expenses that are considered traditional projects include, but are not limited to: New or replacement buses and vans; vehicle rehabilitation (e.g. radios, wheelchair lifts, ramps); passenger facilities (benches, shelters, and amenities); Intelligent transportation systems (ITS); dispatch and fare collection systems; lease of equipment when it is more cost effective; transportation services under contract or lease; capital and operating expenses associated with contracted services; coordination programs among public transportation providers and other human services agencies. Mobility Management is an eligible capital cost.

**Non-Traditional**
The Section 5310 program has expanded the list of eligible activities to include “non-traditional” public transportation projects that:

- a. improve access to fixed-route service and decrease reliance by individuals with disabilities on complementary paratransit.
- b. exceed the requirement of the ADA.
- c. provide alternatives to public transportation that assist seniors and the disabled.

These non-traditional projects are not permitted to utilize more than 45 percent of the OKI apportionment. These projects must be targeted toward meeting the transportation needs of seniors and individuals with disabilities, although the services may also be used by the general public. It is not sufficient that seniors and individuals with disabilities are included (or assumed to be included) among the people who will benefit from the project. FTA encourages projects that are open to the public as a means of avoiding unnecessary segregation of services. The following activities are examples of eligible projects that go beyond the minimum requirements of ADA:
Expansion of service hours for ADA paratransit beyond hours of fixed-route services; incremental cost of providing same day service; incremental cost of making door-to-door service available to all ADA paratransit riders; enhancing service by providing escorts or assisting riders through the door of their destination; purchase of equipment designed for mobility aids that exceed the dimensions/weight ratings under the ADA and labor costs of aides to help drivers with over-sized wheelchairs and installation of additional securement locations in public buses beyond ADA requirement.

Public transportation alternative activities may include: purchasing vehicles to support new accessible taxis, ride sharing, and/or vanpooling programs; supporting the administration and expense related to new voucher programs for existing transportation services offered by human service providers (mileage reimbursement as part of a volunteer driver program, taxi trip, or trips provided by human service agency). Vouchers are an operational expense that requires a 50/50 match.

E. Local Share and Local Funding Requirements
The 5310 grant program requires a local match to ensure projects are 100% funded. The FTA's contribution varies according to project type (please see below). Non-DOT funds and local and private funds can be used as the local match. Matching share requirements are flexible to encourage coordination with other federal programs that may provide transportation, such as Health and Human Services or Medicaid. All sources of local match must be identified and described in the grant application. Applicants must provide local match amount and certify the funding source. Once awards are determined, OKI requires a budget form to be included in subrecipient agreements with all 5310 project awards.

Local Match requirements by project type:
- Capital Projects – 80% Fed/20% Local Match
- Operating – 50% Fed/ 50% Local Match
- ADA or CAA compliant vehicles – 85% Fed/15% Local Match
- ADA or CAA vehicle-related equipment (on and attached to the vehicle) – 90% Fed/ 10% Local Match

F. Project Selection Criteria and Method of Distributing Funds
OKI uses a competitive selection process to determine awards and funding distribution. All projects must be included in the OKI Coordinated Public Transit-Human Services Transportation Plan. This plan was approved on August 9, 2007 and last updated on September 8, 2016. Applications for eligible 5310 projects and activities are scored on the competitive selection criteria listed below. Applications are submitted on the OKI website using an online application form. The content of this form is Appendix 1.
Applications are scored with a total of 100 points distributed among six criteria, as follows:

OKI assures equity of distribution of 5310 funding benefits, as required by Title VI of the Civil Rights Act of 1964, in multiple ways. Public participation is the single most important element of the transportation planning process. OKI’s Unified Planning Work Program (UPWP) includes a discreet work element directing the development and maintenance of the Public Participation Plan. The Plan describes processes in place to successfully engage the citizens, communities and business interests of OKI’s eight county region. This Plan was followed when the current Coordinated Plan was prepared and each time it has been updated. Additionally, OKI prepared and included data depicting our identified Environmental Justice communities to inform the Coordinated Plan strategies and service gaps.

OKI ensures inclusion in development of the Coordinated Plan by following the aforementioned Public Participation Plan. The Coordinated Plan was developed and approved in cooperation with multiple stakeholders and establishes long-term goals for providing transportation services to seniors and persons with disabilities and identifies where gaps in transportation services exist in the OKI region. It also prioritizes which gaps are more important to residents in the region based upon extensive public input and stakeholder engagement. The list of prioritized gaps in transportation services was developed through surveys targeted to seniors and people with disabilities by distributing them through agencies serving these populations; meetings with specialized transportation agency representative and their clients; and, along with other outreach methods used to gather public input including social media posts.

G. Annual Program of Projects Development and Approval Process
The OKI competitive selection process begins with an applicant workshop facilitated by OKI staff. The workshop is open to any agency interested in submitting an application to attend to learn about the application process, eligible activities and eligibility requirements. OKI sends workshop invitations by email to all agencies currently
included within the Coordinated Plan and agencies included in the OKI Tier II Group Transit Asset Management Plan. OKI also distributes program announcements to all currently active Section 5310 agencies in the OKI region, agencies that have previously applied for Section 5310 funding and were denied in the previous year’s program and agencies that have requested information throughout the year. In addition, OKI posts announcement of the workshop on the OKI website www.oki.org and typically announces the date and time at preceding OKI events including the OKI Board/Executive Committee and Intermodal Coordinating Committee meetings.

An application deadline is announced prior to and during the applicant workshop. Agencies that are interested in applying for Section 5310 funds must complete an online OKI application. The online application is posted on the OKI website. Hard copies of the application may also be requested from OKI staff.

Following the application submittal deadline, OKI staff reviews and scores each application to ensure eligibility of applicant as well as proposed activity. The OKI 5310 Oversight Team assists OKI staff in reviewing applications, determining scores based upon the established criteria, and ensuring the appropriate level of traditional projects are included in a final award recommendation. The recommended awards are then forwarded to the OKI Intermodal Coordinating Committee (ICC), which acts as the technical advisory committee to the OKI Executive Committee/Board of Directors. The recommendations of the ICC are presented to the OKI Executive Committee/Board of Directors, which has the final determination of which projects to fund and approves the awards by resolution. OKI staff notifies all applicants whether their application was awarded or not awarded.

**H. State Administration, Planning and Technical Assistance**

OKI uses 10 percent of the annual Section 5310 allocation for administration, planning and technical assistance of the program.

These funds are used by OKI for various purposes including: 1) notifying the public of the solicitation period for the Section 5310 program, 2) holding a public workshop with instructions on how to fill out the Section 5310 application including review of the timeline and deadline for submitting completed applications, 3) providing technical assistance to any applicant or potential applicant as they consider or prepare a proposal, 4) reviewing the completed applications by OKI Staff and the Oversight Team and presenting the recommended projects to the Intermodal Coordinating Committee (ICC), the technical advisory committee, and to the OKI Board of Directors/Executive Committee for approval, 5) preparing the annual Program of Projects (POP) and other documentation necessary to submit each grant and project in the FTA TrAMS system and update annual progress on milestones, and 6) ongoing oversight of subrecipients during awarded project activities to track progress of project delivery and monitor subrecipient agencies compliance with federal requirements.
Funds are used to cover OKI staff time, legal counsel services, and contracted consultant time, as needed, to perform the program administration activities.

**I. Transfer of Fund**

This PMP section does not apply to OKI. OKI is a Designated Recipient, not a state. The OKI 5310 program is not a statewide program. OKI, as a Designated Recipient for the Cincinnati Urbanized Area has no intention of transferring funds to another part of the state.

**J. Private Sector Participation**

OKI encourages private sector public transportation provider participation by collecting and maintaining contact information and communicating with providers on an ongoing basis.

With support by the 5310 Oversight Team, OKI periodically convenes the Tristate Transportation Equitable Opportunity Team (TTEOT), a group of professionals who represent a broad spectrum of transportation providers, including private providers. Meeting agendas focus on best practices to address the transportation needs of the elderly and individuals with disabilities in the OKI tristate region and encourages discussion of barriers that prevent transportation access. The TTEOT is open to anyone interested in joining and shares information regarding ongoing projects, including 5310 funded activities, which impact transportation services for seniors and people with disabilities. All OKI Section 5310 subrecipients are invited to participate, share best practices to encourage coordination, and discover potential opportunities for new partnerships with the TTEOT.

Each annual funding award cycle, OKI sends announcements and notices of 5310 funding awards to the current contact list to ensure the maximum participation by private providers of public transportation. Staff maintains an e-mail list of agency addresses in the region and notifies them when the application process begins. This list includes agencies within the Coordinated Plan, the OKI TAM Plan, and anyone expressing interest in the 5310 program over the year.

**K. Civil Rights**

**Title VI**

As part of the Section 5310 application, each applicant is required to provide information relating to the clientele to be served by the project, including the number of minority individuals broken down by American Indian and Alaska Native, Asian, Black or African American, Hispanic or Latino, and Native Hawaiian and other Pacific Islander population groups.

Additionally, each applicant is required to certify compliance with a number of assurances including:
• Nondiscrimination in Federal Transit Programs
• Nondiscrimination on the Basis of Disability
• Nondiscrimination – Title VI;
• Equal Employment Opportunity;
• Nondiscrimination on the Basis of Sex
• Nondiscrimination on the Basis of Age
• Disadvantaged Business Enterprise (DBE);
• Compliance with Title VI of the Civil Rights Act of 1964, as amended; and
• Limited English Proficiency Requirement.

OKI’s Title VI Program is included in the agency’s annual Unified Planning Work Program (UPWP) and was reviewed by the Ohio Department of Transportation. ODOT is the agency cognizant for overseeing OKI for the states of Ohio, Kentucky and Indiana. The report indicates how ODOT has reviewed OKI’s Title VI program in regards to MPO handling agency compliance; consultant contracts; and, the urban transportation planning process. OKI is not required to file an Equal Employment Opportunity (EEO) report since the agency has less than 50 transit related employees (either directly or through contractors).

OKI monitors subrecipient agencies on an annual basis to ensure Title VI requirements continue to be met by each subrecipient agency. Subrecipient agency Title VI plans are required to be submitted to OKI during the application process. OKI requires subrecipients respond to a monitoring questionnaire distributed to all active subrecipients annually through the duration of a 5310 project or program’s activity or useful life benefit in the case of vehicles.

OKI has established a Disadvantaged Business Enterprise (DBE) Program in accordance with regulations of the U.S. Department of Transportation (DOT), 49 CFR Part 26. OKI has received Federal financial assistance from the Department of Transportation, and as a condition of receiving this assistance, OKI has signed an assurance that it will comply with 49 CFR Part 26. It is the policy of OKI to ensure that DBEs, as defined in Part 26, have an equal opportunity to receive and participate in DOT-assisted contracts. This Program is available for download and review at www.oki.org

I. Section 504 and ADA Reporting
All Section 5310 subrecipients are required to comply with CFR Parts 27, 37 and 38, which implements the Americans with Disabilities Act and amends the 504 rule, as it applies to the provision and scheduling of service.

Since most Section 5310 subrecipients provide demand responsive transportation service, they must comply with the seven eligibility criteria set forth in the ADA and must have achieved system accessibility for ADA eligible clients or will have achieved
accessibility with their proposed project. In addition, subrecipients are required to execute the FTA “Assurance of Nondiscrimination on the Basis of Disability”.

Section 5310 subrecipients approved for vehicle funding are required to report their ridership data for the vehicles that are awarded until the vehicles are approved for disposition. Data collected includes the number and types of passengers served, i.e. elderly, disabled, ambulatory, etc. This information is shown in PMP Section M, Program Measures below.

Section 5310 subrecipients are also required to report the gaps in service that have been filled through the program. This information will be provided in reports submitted to OKI annually and is shown in PMP Section M, Program Measures below.

OKI monitors subrecipient agencies on an annual basis to ensure ADA requirements continue to be met by each subrecipient agency. OKI requires responses to ADA questionnaire distributed to all active subrecipients annually (simultaneous with the aforementioned Title VI questionnaire).

**M. Program Measures**

Reports are required annually in the federal reporting system. Each grantee receiving vehicles is required to submit these reports to OKI. Annual reports are required until OKI grants disposition of the vehicle.

Reports are required for each vehicle awarded by OKI and include the following:

- Gaps in service filled: Total number of seniors and individuals with disabilities afforded mobility (total number of individuals served).
- Ridership: Actual or estimated number of rides (as measured by one-way trips) provided annually for seniors or individuals with disabilities.

The information in the database will be converted to annual figures and compared the actual figures to the estimates listed in the program applications. The comparison is performed to monitor and assess an agency’s compliance with reporting requirements and program goals and purpose. Maintenance information is tracked to ensure grantees are maintaining the vehicles as required and to provide additional documentation for repair disputes and warranty claims. Any repair disputes or warranty claims will be handled directly between the subrecipient and the vehicle vendor. Information will be maintained for monitoring and for future application assessments.

Progress reports are required every 6 months of non-vehicle projects and programs. Subrecipients submit narrative to OKI describing their project/program progress. OKI monitors progress and includes narrative in annual FTA progress reports submitted in TrAMS for each activity.
N. Program Management

Subrecipient Agreement
OKI will develop and execute subrecipient agreements with all subrecipients awarded funding under the Section 5310 Program with the exception of public transit authority designated recipients of 5310 funding. The subrecipient agreements for capital projects will detail the scope of work of the project. Agreements for operating assistance will outline the type of service provided by the subrecipient, the time period covered by the agreement and the service area. All subrecipient agreements will include the funding amounts awarded. Any expenses incurred in excess of the budgeted amounts are the sole responsibility of the subrecipient. Refer to OKI Subrecipient Agreement template Appendix 2.

Procurement
OKI will procure vehicles awarded through the Section 5310 program by the OKI Board of Directors/Executive Committee. OKI will procure the vehicles off the Ohio State Term Contract, which meets all FTA requirements.

ODOT’s Office of Equipment Management (OEM), in cooperation with the Office of Transit, prepares the vehicle and equipment specifications and the bid packages, and reviews all bids received to ensure the specifications have been met. The Office of Transit conducts the pre-award reviews in accordance with the Buy America regulations. ODOT’s Purchasing Services Section within the Office of Contracts advertises and distributes the bid packages, conducts the bid opening and award to the vendor. The Office of Transit handles all purchase orders and vendor payments. Vendors are responsible for having title work prepared.

When necessary, in-plant inspections during the manufacturing process are conducted by OEM and the Office of Transit to ensure compliance with the specifications and FTA requirements. In addition, a pre-delivery inspection is performed by ODOT prior to the vehicles being delivered to the final agency. The post-delivery certifications are completed after the dealership inspections. OKI will keep copies of all necessary ODOT procurement documents.

The vehicles and equipment are delivered directly to the Section 5310 subrecipient agency, which is responsible for road testing and providing OKI with a signed delivery receipt. Payment for the equipment will be initiated by OKI after receiving the signed delivery receipt, the original title with an OKI lien posted and an invoice from the vendor.

Financial Management and Accounting Systems
All 5310 applicants are required to submit a description of their agency including their governing structure and organizational structure along with an organizational chart if available. Additionally, applicants must include the most recent full agency audit with
their application. For applicants and subrecipient agencies receiving less than $750,000 and not required to conduct full audits, OKI accepts annual financial statements prepared by a professional accountant or tax preparer in lieu of a single full audit. OKI reviews this information to determine an assessment of financial risk and may recommend denial of 5310 funding if an applicant's funding request represents amounts proportionately higher than the agency's overall financial state; an agency has no record of stable financial controls; or have significant findings reported by an audit. OKI will continue to monitor subrecipient agencies by requiring copies of annual audits or financial records be provided through the duration of a project or through the useful life benefit of vehicles acquired.

As described in PMP Section E, each applicant is responsible for a minimum local share payment of twenty percent. The local share must be from a non U.S. Department of Transportation source. Subrecipients are required to certify in the application that the local matching funds are available from a non U.S. Department of Transportation source. Once awards are determined, OKI requires a budget form to be included in subrecipient agreements with all non-vehicle 5310 project awards. This budget will need to include the match amount and source.

OKI will invoice the agency that was awarded a vehicle(s) and the local share must be paid to OKI prior to the ordering of the vehicle(s).

**Annual Subrecipient Monitoring**

OKI monitors subrecipient agencies on an annual basis to ensure no significant changes occur to impact financial risk of each subrecipient agency. OKI requires responses to financial risk questionnaire distributed to all active subrecipients annually (simultaneous with ADA and Title VI questionnaire). OKI evaluates questionnaire responses and contacts any agency reporting concerns or changes in agency information. This information will be used to determine the breadth and depth of any corrective action that may be needed. The Annual Monitoring Questionnaire is Appendix 3.

**Vehicle Inspection, Maintenance, and Use**

Inspections of all vehicles awarded by the OKI Board of Directors/Executive Committee shall be conducted onsite by OKI at a minimum of every three years. OKI maintains an inventory of all vehicles.

Along with the onsite vehicle inspection, each agency’s maintenance procedures and practices are reviewed. Recommendations are made as needed and a follow up visit is scheduled if conditions warrant. OKI is committed to a policy of encouraging good preventive maintenance practices. A copy of ODOT’s “A Guide to Preventive Maintenance” is available to each Section 5310 subrecipient from ODOT’s website or by contacting the ODOT Office of Transit at 614-466-8955.
All Section 5310 subrecipients must submit an annual monitoring report (Appendix 4) to OKI documenting vehicle use. This report is required until OKI approves vehicle disposition. Report information is compiled and reviewed periodically to determine if vehicles are being fully utilized. Underutilized vehicles are noted and agencies are contacted. Site visits are scheduled as needed. OKI, using ODOT guidelines, suggests a minimum mileage requirement of 10,000 miles per year and expects vehicles to be in active service at least 5 hours per day, 5 days per week.

Agencies with vehicles that do not meet the minimum utilization requirements are advised and assistance is provided for better vehicle utilization. Coordination is stressed. Should an agency be unable or unwilling to improve the usage of a program vehicle, OKI will transfer the vehicle to another agency in the Cincinnati UZA with unmet transportation needs. Once it is determined the vehicle will be transferred, OKI locates an agency in need of an additional vehicle. The agency receiving the transferred vehicle must pay the original agency 20% of the vehicle’s current value and place the vehicle in service until disposition is granted by OKI.

OKI will provide disposition for a vehicle once it reaches mileage and/or age as detailed in the current FTA Circular 5010.1, Grant Management Requirements per FTA Circular 9070.1G Chapter VI, 4.c. FTA Circular 5010.1, 3.f(2)(b) Light Duty Vehicles useful life is defined as at least 4 years or an accumulation of at least 100,000 miles. All vehicles provided through Section 5310 funding are within the Light Duty Vehicle definition which includes, light duty buses and vans.

O. Other Provisions

Environmental Protection and Clean Air

FTA has determined that vehicles routinely purchased under the Section 5310 program are categorical exclusions. FTA will be consulted regarding environmental requirements should any unusual projects be proposed.

Buy America

OKI will purchase vehicles awarded through the Section 5310 program through the ODOT state contract. Since ODOT conducts the procurement process on behalf of rural Section 5310 subrecipients for the same vehicle types, Buy America provisions are incorporated into all ODOT procurement documents. OKI will keep copies of ODOT’s Buy America provisions on file as documentation.

Pre-Award and Post Delivery Audits

OKI will procure vehicles on behalf of the Section 5310 subrecipients in the Cincinnati UZA in accordance with the FTA regulation “Pre-Award and Post Delivery Audits of
Rolling Stock Purchases”. OKI will use the most recent guidance provided by FTA. OKI will keep copies of ODOT’s pre and post awards in the procurement files as documentation.

Restrictions on Lobbying

All subrecipients are required to execute the certification for Restrictions on Lobbying as part of their application. Subrecipients are also required to have their attorney affirm Lobbying restrictions when executing the Subrecipient Agreement (See Appendix 1).

Exclusive School Transportation

Subrecipients are required to certify in their application their understanding that FTA funded equipment is prohibited for use in exclusive school transportation service. In addition, OKI will carefully review each application to ensure that no exclusive school transportation is included in the sub-recipient’s proposed application.

Drug and Alcohol Testing Requirements

Section 5310 subrecipients are excluded from FTA’s Drug and Alcohol Testing Requirements. However, all holders of a Commercial Driver’s License are subject to the Federal Highway Administration’s (FHWA) drug and alcohol testing requirements. ODOT conducts training and awareness sessions which are open to all Section 5310 subrecipients to make them aware of the FHWA requirements.

Use agency contract data if available. If you don’t have that information, provide your best estimate and footnote how you arrived at that estimate at the bottom of the page. Please use 2018 data.

1. withholding of payments to the Sub-recipient under the Contract until the Sub-recipient complies and/or
2. cancellation, termination, or suspension of the Contract in whole or in part and the Sub-recipient may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of Sept 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(h) Incorporation of Provisions: The Sub-recipient will include the provisions of Paragraph (a) through (g) in every subcontract, including procurement of materials and leases of equipment, unless exempt by the rules, regulations, order of the Secretary of Labor, or directives issued pursuant Section 204 of Executive Order No. 11246 of Sept 24, 1965. The Sub-recipient will take such action with respect to any subcontract, vendor or procurement as the Council, DOT, FHWA or FTA may direct as a means of enforcing such provisions including sanctions for noncompliance; provided, however, that in the event a Sub-recipient becomes involved in, or is threatened with litigation with a subSub-recipient or supplier as a result of such direction, the Sub-recipient may request the Council to enter into such litigation to protect the interest of the Council and, in addition, the Sub-recipient may request the United States to enter into such litigation to protect the interests of the United States.

The Sub-recipient further covenants that in the performance of this Contract no person having any such interest shall be employed.

Item 24. **Violation of and Compliance with Ohio and Kentucky Laws.** The Sub-recipient shall reveal any final determination of violation by the Sub-recipient or any subSub-recipient within the previous five (5) year period pursuant to Ohio Revised Code Chapters 5733, 5740, 5747, 4111, 4101, 4141 and 4123 and KRS Chapters 136, 139, 141, 337, 338, 341, and 342 that apply to the Sub-recipient or any subSub-recipient. The Council and DOT shall have unrestricted authority to publish, disclose, distribute and otherwise use, in whole or in part, any reports, data, or other materials prepared under this Contract.

Item 27. **Waivers or Revisions.** To be valid, a waiver of any condition to this Contract, or any revision to the approved work program and budget must be in writing from a duly authorized official of DOT and the Council. No failure or delay by the Council in exercising any right, remedy, power or privilege hereunder, nor any single or partial exercise thereof, nor the exercise of any other right, remedy, power or privilege shall operate as a waiver hereof or thereof. No failure or delay by the Council in exercising any right, remedy, power or privilege under or in respect of this Contract shall affect the rights, remedies, powers or privileges of the Council hereunder or shall operate as a waiver thereof.

Item 28. **Safeguarding Operations and Funds.** The Sub-recipient will safeguard all funds becoming available to it for approved activities under this Contract (including funds becoming available to it for deposit, or deposited, in the program account) by insurance or fidelity bonds or by taking such other actions as may be approved by DOT and the Council. of this review, to renegotiate with the Sub-recipient and decrease (or increase subject to the availability of funds) accordingly the amount of the compensation provided hereunder.

Item 30. Assignment. The Sub-recipient shall not assign, subcontract or transfer any interest in this Contract without the prior written consent of the Council. Any purported assignment or subcontract in violation hereof shall be void. It is expressly acknowledged that the Council shall never be required or obligated to consent to any request for assignment or subcontract; and further that such refusal to consent can be for any or no reason fully within the sole discretion of the Council. However, in the case of an assignment or transfer of a claim for money due or to become due under this Contract to a bank, trust company or other financial institution as security for the Sub-recipients obligations, the Sub-recipient need not obtain the consent of the Council if the Sub-recipient promptly furnishes notice of any such assignment or transfer.

Item 31. Disputes. The Sub-recipient agrees that all disputes concerning questions of fact in connection with the work, and not otherwise disposed of by the specific terms of this Contract shall be resolved as follows:

The Sub-recipient shall notify the Council’s Executive Director, in writing, within sixty (60) days following a determination by the Council, which in the opinion of the Sub-recipient, is in material conflict with the facts concerning the subject matter. In such notification, the Sub-recipient shall present such evidentiary matters as may support the Sub-recipient’s position and shall request a review of the previous determination. Within a reasonable time, the Executive Director shall cause the circumstance and facts to be reappraised for the purpose of his determination.

The Sub-recipient agrees that the Executive Director will decide all such questions which may arise: including the quality and acceptability of materials furnished and work performed; the rate of progress of the work; the interpretation of the plans and specifications; the acceptable fulfillment of the Contract on the part of the Sub-recipient; matters concerning compensation and all other matters and disputes relating to facts in connection with this Contract; and the services or work to be performed thereunder.

Item 32. Remedies. Except as otherwise provided in this Contract, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement shall be decided by the Council Executive Director, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Sub-recipient. The decision of the Council Executive Director shall be final and conclusive unless within 30 days from the date of receipt of such a copy, the Sub-recipient mails or otherwise furnishes to the Executive Director a written appeal addressed to the Council Executive Committee. The decision of the Executive Committee of the Council Board of Trustees shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, capricious, arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the Sub-recipient shall be afforded an opportunity to be heard and to offer evidence in support of their appeal. Pending final decision of a dispute hereunder, the Sub-recipient shall proceed diligently with the performance of this Contract in accordance with the Council Executive Director’s decision and such continued performance does not in any manner imply acceptance of an agreement with that decision by the Sub-recipient nor does it infringe upon the Sub-recipient’s right to appeal that decision.
This "Remedies" clause does not preclude consideration of law questions in connection with decisions provided for in the above paragraph; provided, that nothing in this Contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

Item 33. Responsibility for Claims and Liability. The Sub-recipient shall indemnify and hold harmless the Council and those agencies previously defined as DOT, from and against liabilities, losses, damages, cost, expenses, and disbursements imposed on, asserted against or incurred by the Council, and DOT to the extent that such liabilities resulted from the negligent performance, or negligent acts of its agents or employees.

Item 34. Disadvantaged Business Enterprise. It is the policy of the Council that disadvantaged business enterprises, as defined in 49 CFR Part 26, shall have the maximum opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this Contract. Consequently, the D.B.E. requirements of 49 CFR Part 26 apply to this Contract.

The Sub-recipient agrees to ensure that disadvantaged business enterprises as defined in 49 CFR Part 26 have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds provided under this Contract. The target for such DBE utilization would be 5% of total contract funds. The Sub-recipient shall take all necessary and reasonable steps in accordance with 49 CFR Part 26 to ensure that disadvantaged business enterprises have the maximum opportunity to compete for and perform contracts. The Sub-recipient shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of DOT-assisted contracts.

Item 36. Authority to do Business. The Sub-recipient must be duly organized and authorized to do business under the laws of Ohio and Kentucky. Sub-recipient must be in good standing and have full legal capacity to provide the services specified under this Contract. The Sub-recipient must have all necessary right and lawful authority to enter into this Contract for the full term hereof and that proper corporate or other action has been duly taken authorizing the Sub-recipient to enter into this Contract. The Sub-recipient will provide the Council with a copy of a corporate resolution authorizing this action and a letter from an attorney confirming that the Sub-recipient is authorized to do business in the State of Ohio and the Commonwealth of Kentucky if requested. All contracts must be signed by a duly authorized officer, agent or employee of the Sub-recipient.

Item 37. Hold Harmless and Indemnification Clause. The Sub-recipient agrees to indemnify, hold harmless, and defend the Council, its elected and appointed officials, employees, agents and successors in interest from all claims, damages, losses and expenses including attorneys’ fees, arising out of or resulting, directly or indirectly, from the Sub-recipient's (or Sub-recipient's subSub-recipients

if any) performance or breach of the contract provided that such claim, damage, loss, or expense is (1) attributable to the negligent acts, errors or omissions of Sub-recipient (or Sub-recipient’s subSub-recipients, if any) and (2) not caused by the negligent act or omission or willful misconduct of the Council or its elected and appointed officials and employees acting within the scope of their employment. This Hold Harmless and Indemnification Clause shall in no way be limited by any financial responsibility or insurance requirements and shall survive the termination of this Contract.

Item 38. Insurance Requirements. Prior to commencing work, Sub-recipient shall obtain at its own cost and expense the following types of insurance through insurance companies licensed in the State of Ohio and the Commonwealth of Kentucky. Insurance written by non-admitted carriers will also be considered acceptable, in accordance with Ohio Revised Code Chapter 3905 and Kentucky Insurance Law (KRS 304.10-040). Workers' Compensation written through qualified group self-insurance programs in accordance with Ohio Revised Code Chapter 4123 and Kentucky Revised Statutes (KRS 342.350) will also be acceptable. The Sub-recipient shall not commence work under this Contract until all insurance required under this Contract has been obtained and until copies of policies or certificates thereof are submitted to and approved by the Council Finance Department. The Sub-recipient shall not allow any subSub-recipient to commence work until the insurance required of such subSub-recipient has been obtained and copies of Certificates of Insurance retained by Sub-recipient evidencing proof of coverages.

Without limiting Sub-recipient's indemnification requirements, it is agreed that Sub-recipient shall maintain in force at all times during the performance of this Contract the following policy or policies of insurance covering its operations, and require subSub-recipients, if subcontracting is authorized, to procure and maintain these same policies. Council may require Sub-recipient to supply proof of subSub-recipient's insurance via Certificates of Insurance, or at the Council's option, actual copies of policies.

A. The following clause shall be added to the Sub-recipient's (and approved subSub-recipient's) Comprehensive General Liability Policies:

4. Approval of the insurance by Council shall not in any way relieve or decrease the liability of the Sub-recipient hereunder. It is expressly understood that the Council does not in any way represent that the specified Limits of Liability or coverage or policy forms are sufficient or adequate to protect the interest or liabilities of the Sub-recipient.

Item 39. Provisions to be Incorporated in Subcontracts. The Sub-recipient agrees to incorporate all the provisions of Appendix C, Item 1 through Item 38 and Appendix D in its entirety, in any subcontracts. Parts 180 and 1200, prior to entering into a covered transaction with an applicant, FTA must determine whether the applicant is excluded from participating in covered non-procurement transactions. For this purpose, FTA is authorized to collect a certification from each applicant regarding the applicant’s exclusion status. 2 C.F.R. § 180.300. Additionally, each applicant must disclose any information required by 2 C.F.R. § 180.335 about the applicant and the applicant’s principals prior to entering into an award agreement with FTA. This certification serves both purposes.

If the applicant is a private corporation, partnership, trust, joint-stock company, sole proprietorship, or other business association, the applicant certifies that:
